

Flow Rate
up to 400 l/min

Cutter Pump
Reliable and Robust

Cutter Pump Series

Advantages

- Compact design with high throughput rate
- Simple, easy disassembly of the cutting plate and blade
- Low energy requirement with high throughput rate
- Pumping and cutting in one operation
- Do not require shaft sealing by a mechanical seal
- Exchangeable and hardened cutting blades
- Cutting plate usable on both sides
- Modular design of cutting units
- Low running costs through high operating efficiency
- High operational reliability
- Maintenance free thanks to bearing bushes.

Design Details

- Flow rate up to 400 l/min
- Delivery head up to 48 m
- Easily cuts aluminium
- Free passage up to 15 mm
- Various immersion depths
- Chip to coolant ratio up to 1.5% by weight
- Oversized motor to bear cutting forces
- Semi-open impellers that allow pumping large particles along with the coolant
